

Tabletop Rolling Bench

EFFICIENT, QUALITY DRIVEN CULTIVATION INFRASTRUCTURE EQUIPMENT.

Why Rolling Benches

A smart choice for growers looking to maximize their cultivation facility's space and operational efficiency. These benches allow for flexible spacing adjustments, optimizing plant density within the available area. With the ability to access plants from both sides, they eliminate the need for space-consuming aisles, making it easier to manage plants and significantly reducing labor requirements.

Why Ours

✔️ Footprints	✔️ Materials	✔️ Other Features		✔️ Service
